-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-18, drawn to a directional dialing cellular telephone protocol, for use within a cellular telephone subscriber community substantially sharing data via a least one mutual common service provider, classified in class 455, subclass 561.1.

Group II, claim(s) 19-21, drawn to a directional dialing cellular telephone protocol enabled business method and an article of manufacture including a computer usable medium having computer readable program code embodied therein for predetermined billing, classified in class 705, subclass 30

- a. The inventions listed as Groups II and I do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Inventions II and I are related as subcombinations disclose as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant, invention II has separate utility

such as cellular telephone protocol enabled business method and an article of manufacture including a computer usable medium having computer readable program code embodied therein for predetermined billing, while invention I has the separate utility of a directional dialing cellular telephone protocol, for use within a cellular telephone subscriber community where a first user with a cellular telephone including directional antenna and a first protocol software application, mutually communicates with a second user with a cellular telephone including an omni-directional antenna and a second protocol software.

2. A telephone call was made to Mr. John Galbreath on 09/08/2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

b. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kwasi Karikari whose telephone number is
